

## RF-101FS

Tape Remover and Lead Forming Machine for Taped Diode  
- Vertical bend and kink.

---

Dimension: 80 × 60 × 90 cm

Voltage : 110/220V AC 50/60HZ

Weight : 105 kgs

- Remove Diodes from Tape to let PIN lead long enough to be cut.
- Outward tensional gauge peels paper tapes from both sides gradually.
- While peeling, gauge keeps PIN Leads straight and cannot damage leads.
- One set of customized forming mold is equipped. Additional mold is available upon request.
- Specially designed PIN stress relief, which clip leads firmly while forming in order to prevent from stress distortion and enhance the forming quality.
